Dear Children,

We would like to invite you to join us on a Tropical Rainforest Adventure. Our friend, Seirian Sumner is an ecologist with an amazing job. Seirian studies the behaviour of ants, wasps and bees in the Amazon rainforest and explores the amazing relationships between insects and plants. Seirian needs your help and hopes you will join her team.

If you join us on this mission, you will be the new 'Science Communication Team' – known as the Rain-Shakers. Your Rain-Shaker Mission is to share the wonders of the rainforest and show your community how the plants, animals and people who live there are all connected.

Can you persuade your people to help you to try and protect this amazing biodiverse world?

Please let us know how you got on. Share your work @edenschoolsteam or by email - education@edenproject.com. Good Luck!

Best Wishes,
The Eden Harmony Schools Team

PS. To find out more about Seirian's fascinating work, visit The Sumner Lab:
